CERTIFICATIONS

Oracle Certified Professional Java Programmer (OCPJP)

Sep 2012

Python Programming from Udemy.com

Aug 2017

WORK EXPERIENCE

Vigilant Medical, Inc., Baltimore, MD – Full Stack Web Developer

July 2018 – Present

- Developed the complete backend for the company's flagship Image Sharing platform.
- Migrated a key product offering's web interface from Asp.Net/.Net to Asp.Net Core/.Net Core.
- Designed and developed the Single-Sign-On functionality using IdentityServer4 and AspNetIdentity frameworks.
- Re-engineered the inhouse legacy application enhancing support for concurrency and scalability using multi-threading.
- Increased the turnaround time for application and subsequent web services by 80% as a result of migration.
- Devised wrapper classes in NHibernate ORM to facilitate database migration from Mongo DB to PostgreSQL.
- Designed Razor Views in conjunction with HTML, CSS and KnockoutJS.
- Implemented Multitenancy in database to enable segregation of concern across the client groups.
- Developed RESTful API's using swagger to integrate several APIs with the client systems.
- Convened daily standups and sprint meetings in accordance with Agile methodologies using Microsoft VSTS.

Sparksoft Inc., Baltimore, MD – Product Development Intern

Aug 2017-May 2018

- Designed and developed the careers page for Sparksoft using the LAMP stack along with JavaScript and Bootstrap.
- Created collections in MongoDB for storing the user records while adding on-the-fly authentication.
- Developed RESTful APIs to retrieve the results from the Sparksoft API for the company's careers page.

Sparkcognition, Austin, TX – Software Engineer Intern

May 2017-Aug 2017

- Developed and integrated different data models of the SparkPredict® Analytics Engine into the GE Predix cloud platform using python and Cloud Foundry.
- Created timeseries charts and graphs for visualization of uploaded Analytic models using ChartJS and HighCharts.
- Developed the front-end application for data visualization on the Predix platform using Polymer, Inuit CSS and Sketch.
- Collaborated with data scientists to understand and refine the predictive models for integration with the Predix platform

Misys Financial Software's Solution, India - Associate Software Developer

Jun 2015-Jul 2016

- Developed software applications for finance industry using C#, .Net and Java along with SQL Databases.
- Developed enhancements for OPICS, which supports front office and back office operations for banks worldwide.
- Utilized the ASP.NET Web API to create RESTful Services along with Web Forms for aesthetic appeal.
- Used the ADO.NET for database connectivity and entity framework using LINQ lambda expressions for queries.
- Summarized user stories for Business Analysts to enable requirements gathering and customer acquisitions.

Peel-Works Pvt. Ltd., India – Software Developer

Dec 2013-May 2015

- Developed a sales associate dashboard and HRMS for FMCG clients using Groovy on Grails, Java and MySQL.
- Developed test automation using Java and Selenium for test script implementation.

PROJECTS

UMBC, Baltimore, MD- Independent Study

Mar 2017-May 2017

- Architected, designed and developed a web application to accurately gauge the rehabilitation progress of Stroke Patients in the current healthcare system.
- Healthcare professionals use the application by analyzing patient data fed to it using sensors like Kinect.
- Utility of the application proven by therapists and clinicians who handled stroke affected patients.
- Attended numerous observation sessions and seminars at the University of Maryland Medical Center.
- Ported the experience to an Android Application for ease-of-use.

PIG Game Implementation Using JavaScript (Self Development Project)

- Developed and designed the interface for the Pig game using plain HTML and CSS.
- Used DOM manipulation and callback functions in plain JavaScript.
- Implemented data-binding in the application so as to display the computed values on the game interface from JavaScript.
- This was just a simple project to hone my JavaScript skills on the free time.
